ETP FARM TOUR 2026

Plasencia, Spain · October 21 – 23, 2026
Host Farm - Tapiz Verde.

The ETP Sod Farm Tour 2026 is more than just a visit — it is a unique international experience that encompasses natural turf, innovation and culture.

Each year, ETP brings together turf producers, professionals and companies from the turf industry to learn, exchange ideas and build connections in an inspiring environment.

At Tapiz Verde SL farm, attendees will be able to see the most advanced production methods up close, watch technology in action and engage in conversations that drive new opportunities.

In addition, participants will enjoy a cultural component with optional visits to the football stadiums of Real Madrid and Atlético de Madrid, or to the historic cities of Mérida, Cáceres and Plasencia.
